

# WYOMING UNITED METHODIST CHURCH

## *Audio/Video Systems Capabilities*

Version 1 - 10/1/2009

Following are the features of the Audio/Video Systems at Wyoming UMC. If the user wants anything beyond these features, or to connect user-provided equipment to the systems, a detailed request must be presented in advance and will be allowed only at Church discretion. If allowed, the Church and its personnel will provide reasonable effort to support it from an operational standpoint, but cannot offer any assurance of user satisfaction. In such cases, the user should make arrangements for training and testing prior to the live usage.
